TABLE OF CONTENTS

Table No.		Page
PART 1 - LAND RESOURCES AND INFORMATION		
1-1	Acquisition of the public domain, 1781-1867	3
1-2	Disposition of public lands, 1781-1995	5
1-3	Comparison of federally owned land with total acreage of States	6
1-4	Public lands under jurisdiction of the BLM	8
1-5	O & C revested lands by Oregon county	12
1-6	Withdrawals and revocations	16
1-7	Cadastral survey actions completed	22
1-8	Obligations of appropriations received, FY 1994 and 1995	52
PART 2 - HEALTHY PRODUCTIVE LANDS		
2-1	Percent of acreage by ecological status by State	56
2-2	Condition of Riparian-wetland areas	58
2-3	Resource conservation and improvement accomplishments	60
2-4	Forest development accomplishments	62
2-5	Types of wildlife habitats on public lands	64
2-6	Estimated numbers of big game animals on public lands	66
2-7	Fish and wildlife habitat improvements completed	70
2-8	Emergency fire rehabilitation projects	78
2-9	Prescribed fire projects	80
PART 3 - COMMERCIAL USES AND REVENUES GENERATED		
3-1	Applications, entries, selections, and patents	83
3-2	Patents issued with minerals reserved to the United States	97
3-3	Nonspecific land use authorizations	101
3-4	Miscellaneous land use authorizations	105
3-5	Summary of authorized use of grazing district (Section 3) lands	111
3-6	Summary of authorized use of grazing lease (Section 15) lands	113
3-7	Grazing permits in force on grazing district (Section 3) lands	115
3-8	Grazing leases in force on grazing lease (Section 15) lands	117
3-9	Timber and nontimber forest product sales	119
3-10	Competitive oil and gas and geothermal leasing	121
3-11	Noncompetitive oil and gas and geothermal leases	133
3-12	Other oil and gas leasing actions	154
3-13	New oil and gas well drilling activities on Federal lands	158
3-14	Continuing oil and gas activities on Federal lands	160
3-15	Coal leases, licenses, permits, preference right lease applications and logical mining units	162
3-16	Other solid mineral leases, licenses, permits, and preference right lease applications	169
3-17	Disposition of mineral materials	180
3-18	Mineral patents issued	192

3-19	Recordation of mining claims	194
3-20	Notices and plans of mining operations filed with BLM	198
3-21	Receipts from the disposition of public lands and resources, May 20, 1785 through FY 1995	202
3-22	Statement of receipts by source	205
3-23	Receipts from oil and gas right-of-way rentals, mineral leases, licenses, and permits	214
3-24	Allocation of receipts to States and local governments by program	216
3-25	Allocation of receipts by source and fund	218
3-26	Payments to States and territories	221
3-27	Legal allocation of BLM receipts	231

PART 4 - RECREATION AND LEISURE ACTIVITIES

4-1	Estimated recreational use of public lands administered by BLM by major activity grouping	242
4-2	Estimated number of hunter days and net value of hunting trips on public lands	244
4-3	Estimated number of persons, visitor days and expenditures for nonconsumptive trips to public lands	248
4-4	Estimated recreational visits to non-fee sites on public land administered by BLM	250
4-5	Recreation use for fee sites on public lands administered by BLM	252
4-6	Land and Water Conservation Fund Act deposits from BLM-administered recreational fee activities	254

PART 5 - PRESERVATION OF SIGNIFICANT CULTURAL AND NATURAL FEATURES

5-1	Land exchanges	259
5-2	Federally listed T/E and candidate plant species	262
5-3	Federally listed T/E and candidate animal species	264
5-4	Wild free-roaming horse and burro populations	268
5-5	Wild free-roaming horse and burro removals and adoptions by State	270
5-6	Cultural resource management activities	274
5-7	BLMs ACEC's	276
5-8	BLM wilderness study area	277
5-9	BLM wilderness recommendations pending before Congress	278
5-10	BLM lands designated as wilderness by Congress	279

PART 6 - PUBLIC HEALTH, SAFETY, AND RESOURCE PROTECTION

6-1	Fires on or threatening BLM lands	284
6-2	Capital improvements on public lands	290
6-3	Hazardous waste sites on public lands	291

Glossary	293
--------------------	-----

WELCOME TO PUBLIC LAND STATISTICS 1994/1995

Welcome to this combined 1994/1995 edition of *Public Land Statistics*. After a 1-year absence, Public Land Statistics is back as a yearly publication. And we have changed it in ways that we think will make it even more useful and accessible.

To begin with, the tables have been renumbered and resequenced (refer to the accompanying chart) to mirror the Bureau of Land Management's mission, vision, and strategic goals as set forth in the agency's *Blueprint for the Future*. Rather than presenting data by program area, we have organized tables around common themes. This approach recognizes that separate, distinct programs such as wildlife and recreation are being replaced by a multidisciplinary approach to land and resource management.

Another change is the publication format. We are now publishing in an 8 1/2-by 11-inch format. This saves substantial typesetting time and costs and results in larger, easier-to-read table formats.

Copies of this 1994/1995 edition, as well as copies of previous years' editions, can be obtained by writing to the Printed Materials Distribution Section (PMDS), Denver Federal Center, Building 50, P.O. Box 25047, Denver, CO 80225-0047.

Note that the data presented in the 1994/1995 Public Land Statistics tables may not exactly match the data in other BLM publications covering FY 1994 and 1995 operations and accomplishments. This occurs because the databases that provide table data are not static; they are constantly being updated to provide the latest information, sometimes many months after the end of a fiscal year. We have presented the most current data available in this edition of Public Land Statistics.

We welcome your feedback and suggestions, especially with regard to (1) data not presented that you would find useful and (2) the new format and table organization. Please send comments to the attention of the Public Land Statistics Team (BC-650) at the address given above for ordering paper copies.

We are committed to publishing a Public Land Statistics book each year that is timely, complete, and responsive to your needs as a customer.

NEW PUBLIC LAND STATISTICS TABLE NUMBERS

NEW TABLE NUMBER	FY 1993 TABLE NUMBER	TABLE NAME
		PART 1 - LAND RESOURCES AND INFORMATION
1-1	1	Acquisition of the public domain, 1781-1867
1-2	2	Disposition of public lands, 1781-1995
1-3	3	Comparison of federally owned land with total acreage of States
1-1	9	Public lands under jurisdiction of the BLM
1-5	8	Oregon & California revested lands by Oregon county
1-6	9	Withdrawals and revocations
	MAP	Public Land Survey, Principal Meridians and Base Lines
1-7	59	Cadastral survey actions completed
1-8	61	Obligations of appropriations received, FY 1994 & 1995
		PART 2 - HEALTHY PRODUCTIVE LANDS
2-9	10	Percent of acreage by ecological status by State
2-2	New	Condition of Riparian-wetland areas
2-3	18	Resource conservation and improvement accomplishments
2-9	22	Forest development accomplishments
2-5	23	Types of wildlife habitats on public lands
2-6	24	Estimated numbers of big game animals on public lands
2-9	27	Fish and wildlife habitat improvements completed
2-9	59	Emergency fire rehabilitation projects
2-9	59	Prescribed fire projects
		PART 3 - COMMERCIAL USES AND REVENUES GENERATED
3-1	9	Applications, entries, selections, and patents
3-2	8	Patents issued with minerals reserved to the United States
3-4	10	Nonspecific land use authorizations
3-4	11	Miscellaneous land use authorizations
3-5	12	Summary of authorized use of grazing district (Section 3) lands
3-6	13	Summary of authorized use of grazing lease (Section 15) lands
3-7	14	Grazing permits in force on grazing district (Section 3) lands

NEW TABLE NUMBER	FY 1993 TABLE NUMBER	TABLE NAME
3-8	15	Grazing leases in force on grazing lease (Section 15) lands
3-9	19	Timber and nontimber forest product sales
3-10	41	Competitive oil and gas and geothermal leasing
3-11	42	Noncompetitive oil and gas and geothermal leases
3-12	43	Other oil and gas leasing actions
3-13	44	New oil and gas well drilling activities on Federal lands
3-13	45	Continuing oil and gas activities on Federal lands
3-15	47	Coal leases, licenses, permits, preference right lease applications and logical mining units
3-16	49/50	Other solid mineral leases, licenses, permits, and preference right lease applications

3-21	47	Receipts from the disposition of public lands and resources, May 20, 1785 through FY 1995
3-22	63	Statement of receipts by source
3-23	54	Receipts from oil and gas right-of-way rentals, mineral leases, licenses, and permits
3-24	65	Allocation of receipts to States and local governments by program
3-25	66	Allocation of receipts by source and fund
3-25	68	Payments to States and territories
3-27	67	Legal allocation of BLM receipts
		PART 4 - RECREATION AND LEISURE ACTIVITIES
4-1	47	Estimated recreational use of public lands administered by BLM by major activity grouping
4-2	26	Estimated number of hunter days and net value of hunting trips on public lands
4-3	26	Estimated number of persons, visitor days and expenditures for nonconsumptive trips to public lands
4-4	33	Estimated recreational visits to non-fee sites on public land administered by BLM
4-5	35	Recreation use for fee sites on public lands administered by BLM

NEW TABLE NUMBER	FY 1993 TABLE NUMBER	TABLE NAME
4-6	36	Land and Water Conservation Fund Act deposits from BLM-administered recreational fee activities
		PART 5 - PRESERVATION OF SIGNIFICANT CULTURAL AND NATURAL FEATURES
5-1	7	Land exchanges
5-2	28	Federally listed T/E and candidate plant species
5-3	29	Federally listed T/E and candidate animal species
5-4	30	Wild free-roaming horse and burro populations
5-5	31	Wild free-roaming horse and burro removals and adoptions by State
5-6	32	Cultural resource management activities
5-7	37	BLMs ACEC's
5-8	38	BLM wilderness study area
5-9	39	BLM wilderness recommendations pending before Congress
5-10	40	BLM lands designated as wilderness by Congress
		PART 6 - PUBLIC HEALTH, SAFETY, AND RESOURCE PROTECTION
6-1	57	Fires on or threatening BLM lands
6-2	New	Capital improvements on public lands
6-3	New	Hazardous waste sites on public lands

Part 1

LAND RESOURCES AND INFORMATION

The total area of the 50 States is 2.3 billion acres. The Federal Government has, at various times in U.S. history, held title to about 80 percent of the Nation's total area (Table 1-1). Today, Federal civil and defense agencies administer about 650 million acres, or about 29 percent of the total area (Table 1-3).

The Bureau of Land Management (BLM) is the custodian of the public lands records for the United States Government. Over the years, the BLM has developed a land records system using a microfilming process. BLM is now in the process of automating land records. Automation will streamline the BLM's responses to public inquiries, facilitate processing applications and permits, improve access to land records and resource data, ensure accuracy and consistency of data, and improve planning, tracking, and evaluation of uses on the public lands.

The BLM also has National responsibility for legal identification of all Federal land boundaries and the maintenance of the Public Land Survey System. Cadastral surveys are an integral component of land title for the Federal government, including the Alaska land conveyance program. BLM's 1994 and 1995 survey emphasis supported land and realty actions (i.e., land exchanges/acquisition, trespass abatement) and boundary surveys of various special land management designations such as Wilderness, Wild and Scenic River designations, and National Conservation Areas.

The BLM has exclusive jurisdiction for about 41 percent, or 264 million acres, of the federally owned lands (Table 1-4). Approximately one-third of this area is in the State of Alaska. Other major land-holding agencies in the Department of the Interior include the National Park Service, Fish and Wildlife Service, and Bureau of Reclamation.

Up to the present, title to approximately 1.1 billion acres has been transferred to individual citizens, businesses, and non-Federal governmental organizations under Federal legal authority generally referred to as the "land laws." Substantial portions, amounting to over 287 million acres, have been removed from Federal ownership under the authority of the Homestead Laws. Another 328 million acres have been granted to States to help support public schools, develop transportation systems, and promote general economic development (Table 1-2).

In Western Oregon, an area of approximately 2.6 million acres comprises the Oregon and California (O&C) revested lands (Table 1-5). Originally public domain, this acreage was reconveyed and revested to the United States from grants made to private concerns to construct the Oregon and California Railroad and the Coos Bay Military Wagon Road.

Use of the public lands has changed throughout our Nation's history and continues to evolve. Originally viewed as the Great American Desert, these lands over time came to be regarded primarily as a source of livestock forage, timber, and energy and mineral resources. Today, the public lands are valued more and more for their environmental resources, the recreational opportunities they offer, the cultural resources they contain, and, in an increasingly urban world, their vast open spaces.

To meet today's changing and diverse demands, BLM is changing its management of the public lands. To maintain the health of the public lands, the agency is taking a "big picture" or landscape approach to land management. This promotes both biological diversity on the public lands and sustainable development of their resources. BLM's mandate under the Federal Land Policy and Management Act of 1976 (FLPMA) is to manage the public lands for multiple use, while protecting the long-term health of the land.

TABLE 1-1. Acquisition of the public domain, 1781-1867

Acquisition	Area			Percent of total U.S. land	Cost/a/
	Land	Water	Total		
	Acre Acres	Acre Acres	Acre Acres		
State Cessions (1781-1802)	233,415,680	3,409,920	236,825,600	10.2	b/\$6,200,000
Louisiana Purchase (1803)/c/	523,466,000	6,465,280	529,911,680	22.9	23,213,568
Red River Basin (1782-1817)	29,066,880	535,040	29,601,920	1.3	
Cession from Spain (1819)	43,342,720	2,801,920	46,144,640	2.0	6,674,057
Oregon Compromise (1846)	180,644,480	2,741,760	183,386,240	7.9	
Mexican Cession (1848)	334,479,360	4,201,600	338,680,960	14.6	16,295,149
Purchase from Texas (1850)	78,842,880	83,840	78,926,720	3.4	15,496,448
Gadsden Purchase (1853)	18,961,920	26,880	18,988,800	0.8	10,000,000
Alaska Purchase (1867)	365,333,120	12,909,440	378,242,560	16.3	7,200,000
Total public domain	1,807,533,440	33,175,680	1,840,709,120	79.4	85,079,222

/a/ Cost data for all except "State Cessions" obtained from U.S. Geological Survey, *Boundaries, Area, Geographic Centers* (Washington, D.C., U.S. Government Printing Office, 1939), pp. 249-251.

/b/ Georgia Cession, 1802 (56,689,920 acres), See Donaldson, Thomas, *The Public Domain, Its History, with Statistics* (Washington, D.C., U.S. Government Printing Office, 1884), p.11.

/c/ Excludes areas eliminated by treaty of 1819 with Spain.

Note: Alaska has been adjusted for the recomputation of the areas of the United States that was made for the 1980 decennial census.

Source: U.S. Department of the Interior, Office of the Secretary, *Areas of Acquisition to the Territory of the United States...* (Washington, D.C., U.S. Government Printing Office, 1992). Acreages therein are based on findings adopted February 2, 1912, by the Secretary of the Interior.

ACQUISITIONS

TERRITORY OF THE ORIGINAL THIRTEEN STATES

-  State cessions to the United States
-  North Carolina cession to the United States, 1790
United States cession to Tennessee, 1806 and 1846
-  The Original Thirteen States (present area) plus the District of Columbia

TERRITORY OF THE REPUBLIC OF TEXAS (Annexation of Texas, 1845)

-  United States purchase from Texas, 1850
-  State of Texas (present area)

OTHER ACQUISITIONS OF THE UNITED STATES

-  Louisiana Purchase from France, 1803
-  Treaties with Great Britain, 1783 and 1817
-  Treaty with Spain (cession of Florida and adjustment of claims), 1819
-  Oregon Compromise with Great Britain, 1846
-  Cession from Mexico, 1848
-  Gadsden Purchase from Mexico, 1853

ALASKA

Purchased from Russia, March 30, 1867

THE U.S. DEPARTMENT OF THE INTERIOR
BUREAU OF LAND MANAGEMENT

TABLE 1-2. Disposition of the public lands, 1781-1995

Type of Disposition	Acres
Disposition by methods not elsewhere classified/a/	303,500,000
Granted or sold to homesteaders/b/	287,500,000
Total unclassified and homestead dispositions	591,000,000
Granted to States for:	
Support of common schools	77,630,000
Reclamation of swampland	64,920,000
Construction of railroads	37,130,000
Support of miscellaneous institutions/c/	21,700,000
Purposes not elsewhere classified/d/	117,600,000
Canals and rivers	6,100,000
Construction of wagon roads	3,400,000
Total Granted to States	328,480,000
Granted to railroad corporations	94,400,000
Granted to veterans as military bounties	61,000,000
Confirmed as private land claims/e/	34,000,000
Sold under timber and stone law/f/	13,900,000
Granted or sold under timber culture law/g/	10,900,000
Sold under desert land law/h/	10,700,000
Total miscellaneous dispositions	224,900,000
Grand Total	1,144,380,000
/a/ Chiefly public, private, and preemption sales, but includes mineral entries, scrip locations, and sales of townsites and townlots.	
/b/ The homestead laws generally provided for the granting of lands to homesteaders who settled upon and improved vacant agricultural public lands. Payment for the lands was sometimes permitted, or required, under certain conditions.	
/c/ Universities, hospitals, asylums, etc.	
/d/ For construction of various public improvements (individual items not specified in the granting acts), reclamation of desert lands, construction of water reservoirs, etc.	
/e/ The Government has confirmed title to lands claimed under valid grants made by foreign governments prior to the acquisition of the public domain by the United States.	
/f/ The timber and stone laws provided for the sale of lands valuable for timber or stone and unfit for cultivation.	
/g/ The timber culture laws provided for the granting of public lands to settlers on condition that they planted and cultivated trees on the lands granted. Payments for the lands were permitted under certain conditions.	
/h/ The desert land laws provided for the sale of arid agricultural public lands to settlers who irrigated them and brought them under cultivation.	

Note: Data are estimated from available records.

TABLE 1-3. Comparison of federally owned land with total acreage of States, fiscal year 1994

State	Acreage owned by the Federal Government			Acreage not owned by Federal Government	Total acreage of State/a/	Percent owned by Govern- ment/b/
	Public Domain	Acquired by other methods	Federal total			
Alabama	1,160.0	1,080,211.5	1,081,371.5	31,597,028.5	32,678,400	3.309
Alaska	242,666,942.2	128,818.7	242,795,760.9	122,685,839.1	365,481,600	66.432
Arizona	31,193,843.0	1,294,574.9	32,488,417.9	40,199,582.1	72,688,000	44.696

TABLE 1-4. Public lands under exclusive jurisdiction of the Bureau of Land Management, FY 1994--concluded

/a/ The following types of surveyed and unsurveyed public and ceded Indian lands are included: Areas withdrawn under the Executive Orders of November 26, 1934, and February 5, 1935 (43 CFR 2400.0-3 et seq.); areas embraced in mineral withdrawals and classifications; areas withdrawn for survey; and areas restored to entry within national forests (Act of June 11, 1906, 34 Stat. 233, 16 U.S.C. 506-509), within reclamation projects (Act of June 17, 1902, 32 Stat. 388), and within power site reserves (Act of June 10, 1920, 41 Stat. 1063; 16 U.S.C. 791). These lands are not covered by any non-Federal right or claim other than permits, leases, rights-of-way, and unreported mining claims.

/b/ "Land Utilization Project" lands, purchased by Federal government under Title III of the Bankhead-Jones Farm Tenant Act and subsequently transferred by various Executive Orders between 1941 and 1958 from jurisdiction of the U.S. Department of Agriculture to the U.S. Department of the Interior, now administered by the Bureau of Land Management. Acreages are within grazing districts unless otherwise noted.

/c/ Includes acreage on the Barry M. Goldwater Air Force Range.

Note: Lands under BLM's exclusive jurisdiction are those lands (and resources) managed solely by the Bureau of Land Management. Table includes all unperfected entries except for those involving reclamation and forest homesteads.

Yamhill	33,003				33,003
Total	2,083,737	462,678	29,721	74,547	2,650,683

/a/ These lands are administered by the Bureau of Land Management. They include O&C timber on non-Federal land on 322 acres in Columbia County and 243 acres in Yamhill County.

/b/ Under the provisions of Public Law 426, approved by the 83rd Congress on June 24, 1954, these lands are declared to be reverted O&C railroad grant lands. They were placed under the jurisdiction of the Secretary of Agriculture to be administered with National Forest lands, with all revenues derived from such lands to be handled in accordance with the provisions of Title II of the O&C Act of August 28, 1937 (50 Stat. 874) as amended by Public Law 426.

TABLE 1-5. Area of Oregon and California (O&C) revested lands,
fiscal year 1994--concluded

- /c/ Certain O&C areas were set aside by various Acts of Congress to be administered by the Forest Service without losing their O&C identity. The lands in Benton, Clackamas, Jackson, and Polk Counties are watershed lands, while the land in Josephine County is an administrative site.
- /d/ Administered by the Bureau of Land Management; excludes Coos Bay Wagon Road timber on 87 acres of non-Federal land in Coos County.
- /e/ Acreage change resulted from land exchange.
- /f/ Acreage change resulted from land exchange and land sale.

/a/ This figure includes a 769,543-acre one-year emergency withdrawal, which was made by the Secretary of the Interior, of the public mineral estate within the U.S. Fish and Wildlife Service Desert National Wildlife Refuge in Nevada. This withdrawal expired on October 13, 1994. Prior to expiration of the emergency withdrawal, a 20-year withdrawal for the same 769,543 acres was effective on August 4, 1994. Therefore, the acreage for the U.S. Fish and Wildlife Service in Nevada reflects both of these overlapping withdrawals.

Note: The above figures are a compilation of withdrawals, revocations, and modifications that were administratively made by the Secretary of the Interior. These withdrawals are for a specific duration that can vary from less than 1 year to 50 years, with a provision for extension if the withdrawal is still needed.

Grand Total of Obligations	1,156,095,020

Part 2

HEALTHY PRODUCTIVE LANDS

Healthy, productive, and naturally diverse ecological systems are essential to our Nation's stability and well-being. Healthy ecosystems also ensure that future generations enjoy the social, economic, aesthetic, spiritual, and other benefits and values offered by the land. The Bureau of Land Management is committed to maintaining and restoring the long-term health of the public lands, acting in partnership with State, local, and tribal governments; other Federal agencies; and interested members of the public.

To effectively carry out ecosystem management, the Bureau will need to (1) better understand historical and present conditions of the land, (2) use science and technology to identify and relieve stresses to the land's health, and (3) work with the public to develop consensus goals for the health of the land. Obtaining this information and achieving these goals will require coordinated planning and collaborative approaches. Periodic assessments will be conducted to help the Bureau (1) define critical baseline information on the status and trend of the land's health; (2) predict direct, indirect, and cumulative effects of activities on the land, water, and air; and (3) identify and evaluate long-term trends.

Table 2-1 provides a summary of the Ecological Site inventories conducted during the past 2 years. Ecological site inventories provide land managers with useful information for determining site capability and assessing whether resource management objectives are being met.

Table 2-2, BLM Riparian-Wetland Areas and Condition, is new. Riparian areas (lotic) are reported in miles of green zone along flowing water features such as creeks, streams, and rivers. Wetland areas (lentic) are reported in acres associated with standing water bodies such as bogs, marshes, wet meadows, and estuaries. A riparian-wetland area is healthy and functioning when adequate vegetation, landform, or large woody debris is present to dissipate the energy associated with high water flows.

Table 2-3, Resource Conservation and Improvement Accomplishments, is a summary of the many conservation, rehabilitation, and development projects completed on the public lands during the past 2 years. These efforts help stabilize soils, maintain or improve water quality, control siltation and salinity, reduce surface runoff, and control flooding.

Table 2-4, Forest Development Accomplishments, shows the numerous reforestation and improvement projects completed during the past 2 years. These efforts lead to improvement of forest health conditions on the public lands.

Table 2-5 describes the various type of wildlife habitats that exist on the public lands. No single Federal or State agency manages more fish and wildlife habitat than the Bureau of Land Management. As the quality and quantity of the Nation's fish and wildlife habitats decrease, the varied habitats on public lands become increasingly important to maintain a national fish and wildlife heritage.

Table 2-6 shows an estimate of the numbers of big game species located on public lands. Most of this data is provided by the various State wildlife agencies.

Table 2-7 demonstrates the variety of improvement projects used to improve the fish and wildlife habitats on public land. Most of these efforts are accomplished in cooperation with State wildlife agencies and conservation groups.

Table 2-8 displays the Bureau's fire rehabilitation projects that were needed to stabilize soils after wildfires occurred. In fiscal year 1994, the Bureau completed 67 emergency fire rehabilitation projects; in fiscal year 1995, we completed 200 projects.

Table 2-9, Prescribed Fire Projects, shows the Bureau's efforts to utilize fire as a critical natural process to maintain and restore ecosystems. In fiscal year 1995, we utilized fire on 9,000-plus acres to enhance the health of our public rangelands and forestlands.

TABLE 2-1. Percent of acreage by ecological status by state, fiscal year 1994

Administrative State	Percent Acres Inventoried	Percent by Ecological Status /a/					Unclass /b/
		Potential Natural Community	Late Seral	Mid Seral	Early Seral		
Arizona	39	6	37	38	9	10	
California	13	3	19	42	30	5	
Colorado	47	4	19	35	21	21	
Idaho	77	2	22	34	36	6

Part 3

COMMERCIAL USES AND REVENUES GENERATED

The demands being placed on the public lands are growing in tandem with the number and diversity of the people the BLM serves. Our ability to meet these new demands will depend on improving the Bureau's accountability to users of the public lands, while emphasizing the responsibility of these users to adhere to an ethic that is sensitive to the land's health and responsive to the public's right to receive fair value in return.

The BLM has historically made land available for authorized private-sector activities, such as recreation, energy and mineral commodity extraction, livestock forage and sawtimber production, and other related land use authorizations and land dispositions, and we will continue to do so. Taxpayers should expect to receive a fair return from such transactions, consistent with existing laws. The BLM will also ensure that environmental impacts on the land and on other users are minimized so as to prevent long-term impairment or the creation of unfunded taxpayer liabilities.

BLM administers an onshore surface and mineral estate of about 264 million acres of public land, plus another 300 million acres of mineral estate underlying other lands. BLM also provides technical supervision of mineral development on Indian lands.

The following tables of statistics show the essential outputs of various interrelated programs that provide commercial uses as shown in Tables 3-1 through 20. Tables 3-21 through 27 display outcome-oriented information in terms of receipts or payments and the allocation of funds generated from commercial use activities on public lands. It must be noted that only receipts and payments collected by BLM are listed. For revenues derived from BLM energy and mineral activities, please refer to Mineral Revenues in the annual report of the Minerals Management Service, a Department of the Interior agency. The total onshore mineral revenues, including royalties, rents, and bonus bids, were \$1,114.9 million and \$961.1 million for calendar years 1994 and 1995, respectively.

TABLE 3-1. Applications, entries, selections, and patents,
fiscal year 1994--concluded

- /a/ Snake River omitted lands.
- /b/ Supplemental patents issued to remove reversionary clause in previously issued recreation and public purpose (R&PP) patent.
- /c/ Acreage of supplemental patents is not included in the total because it was previously counted when the original patents were issued.
- /d/ Purchase price for mineral estate conveyed with FLPMA sale and R&PP patents.
- /e/ Includes 160 acres of timber interest only.
- /f/ Three homesites, 14.98 acres, and 1 Trade and Manufacturing Site, 39.97 acres, Act of March 3, 1927, 43 U.S.C. 687a; 1 lot, 1.13 acres, PL 1613 dated April 11, 1958; 71 patents issued to ANCSA Native Corporations pursuant to Alaska Native Claims Settlement Act of 1971 (this includes 3 patents (original) for 9,136.67 acres and 68 (confirmatory) patents for 901,446.58 acres previously transferred under interim conveyances); 424 Native Allotment Certificates, 36,110.41 acres, Act of May 17, 1906(4,768.08 acres on BLM public lands); 7 Townsite patents, 114 acres, Act of March 3, 1981; 732,733 acres, Section 3 of Act of May 25, 1926; and 7 parcels, 523.75 acres, to Alaska Railroad, Act of January 4, 1983, 96 Stat. 2556.
- /g/ Airport conveyance, Section 516 of the Airport and Airway Improvement Act of 1982.
- /h/ Special legislation, 104 Stat. 1019.
- /i/ Private land claim, 977.01 acres; Act of December 2, 1993, PL 103-175, 107 Stat. 2002, 159.36 acres.
- /j/ Act of 1990, 104 Stat. 1019, providing for the resolution of individual title claims against public lands in the State of Minnesota.
- /k/ Forest Service Small Tract, 96 Stat. 2535.
- /l/ One patent, 716.01 acres, \$957,000 under the Mesquite Sale Act,; 1 patent, 467.82 acres, \$229,000 under the Act of July 31, 1989.

Note: "Purchase money" includes all revenues collected during the reporting fiscal year at allowed and approved stages from all ongoing cases leading to patent; however, this money is not always received in the same year that the application is allowed or approved, or in the same year that the patent is issued. Purchase money enters into the land exchange process because exchanges must result in equal value given and received by both parties; this means that cash payments are sometimes made or received by the Bureau to ensure an equitable exchange.

/c/ Clear Creek County, Colorado, Land Transfer Act of 1933, P.L.103-253.						
/d/ Three patents (7.5 acres), Act of 2/23/1980, 94 Stat. 3381; 1 patent (107,412 acres), Act of 3/6/1958, 72 Stat. 31.						

TABLE 3-1. Applications, entries, selections, and patents, fiscal year 1995---concluded

Note: "Purchase money" includes all revenues collected during the reporting fiscal year at allowed and approved stages from all ongoing cases leading to patent; however, this money is not always received in the same year that the application is allowed or approved, or in the same year that the patent is issued. Purchase money enters into the land exchange process because exchanges must result in equal value given and received by both parties; this means that cash payments are sometimes made or received by the Bureau to ensure an equitable exchange.

/a/ Minerals began to be reserved with the Agricultural Coal Lands Act of March 3, 1909; acts expanding on this and covering other minerals were subsequently enacted.

/b/ As of June 30 through 1976; thereafter, as of September 30 each year.

/c/ Does not include 165,712 stockraising homesteads comprising 70,362,925 acres that reserved all minerals to the United States. Some of these homesteads were entered but not patented.

Note: Data prior to 1949 was tabulated from incomplete records. Data includes patents issued on both BLM and Forest Service lands.

**TABLE 3-10. Competitive oil and gas and geothermal leasing,
fiscal year 1994--concluded**

/a/ Includes leasing actions during the fiscal year as shown in the three right-hand columns of this table.

/b/ Leases issued prior to the Federal Onshore Oil and Gas Leasing Reform Act of 1987. The three right-hand columns of the table do not apply to these leases.

/c/ Leases issued under the Federal Onshore Oil and Gas Leasing Reform Act of 1987.

/d/ Leases issued under the Mineral Leasing Act of 1920 for lands previously withdrawn or reserved from the Public Domain that are no longer needed by the agency for which the lands were withdrawn, and that have been declared excess or surplus by the General Services Administration.

/e/ Leases issued in accordance with the provisions of the Attorney General's Opinion of April 2, 1941: they must have the consent of the jurisdictional agency, must have drainage of oil and/or gas wells located on adjacent lands, and must not be subject to leasing under any Leasing Act.

NA. Not applicable.

Note: Changes in figures for Pre-Reform Act leases may be due to a change in data collection reporting methods.

Grand Total of all competitive oil & gas & geothermal leases					
	17,130	9,962,470	3,152	2,395,094	\$47,339,046

/a/ Includes leasing actions during the fiscal year as shown in the three right-hand columns of this table.

/b/ Leases issued prior to the Federal Onshore Oil and Gas Leasing Reform Act of 1987. The three right-hand columns of the table do not apply to these leases.

/c/ Leases issued under the Federal Onshore Oil and Gas Leasing Reform Act of 1987.

/d/ Leases issued under the Mineral Leasing Act of 1920 for lands previously withdrawn or reserved from the Public Domain that are no longer needed by the agency for which the lands were withdrawn, and that have been declared excess or surplus by the General Services Administration.

/e/ Leases issued in accordance with the provisions of the Attorney General's Opinion of April 2, 1941: they must have the consent of the jurisdictional agency, must have drainage of oil and/or gas wells located on adjacent lands, and must not be subject to leasing under any Leasing Act.

NA. Not applicable.

Note: Changes in figures for Pre-Reform Act leases may be due to a change in data collection reporting methods.

/a/ Includes new actions during the fiscal year as shown in the three right-hand columns of this table.

/b/ FCLAA is the Federal Coal Leasing Amendments Act. This case type includes competitive and noncompetitive coal leases issued prior to August 4, 1976.

N/A. Not applicable.

Note: Data does not allow the split between public domain and acquired lands as provided in previous Public Land Statistics editions. Competitive leases are now split into three separate categories: competitive regional, competitive regional emergency/bypass, and competitive nonregional lease-by-application. Slight differences in acreage may be noted in the FY 1995 table from previous editions. The differences are due to how the acreage figure rounded to the nearest acre.

/a/ Uranium noncompetitive lease expired on March 31, 1990. However, abandonment work remained to be completed on the lands. The case was not closed as of September 30, 1994.

/b/ Includes the following minerals: amethyst, asphalt, barite, bentonite, clay, copper fluorspar, garnet, gold metal, gold ore, gold placers, granite, iron concentrate, iron ore, limestone, olivine, quartz, quartz crystals, sand/gravel, silica sand, titanium, tripoli, and wavellite.

N/A. Not applicable.

/a/ Hardrock leases and permits include these minerals: barite, bentonite, chromite, cerium, columbium, clay, copper, diamond, fluorspar, garnet, gold, iron, lead, limestone, nickel, platinum, olivine, quartz, quartz crystals, sapphire, silica sand, silver, staurolite, titanium, tripoli, wavellite, yttrium, zinc, and other minerals.

/b/ These phosphate leases were reported separately in previous years under an acquired lands phosphate case type.

/c/ Thirty-six of these leases were reported separately in previous years as lead and zinc leases.

/d/ This uranium lease was reported separately in previous years. This lease expired on March 31, 1990. However, abandonment work remained to be completed on the lands. The case was not closed as of September 30, 1995.

Note: Minerals are listed in a different order this fiscal year because of the changeover to the Case Recordation System as the data source. The Accepted Bonus Bids column was deleted because no bonus bids were received in fiscal year 1995 for the minerals listed in this table.

Source: Case Recordation System.

/a/ Values include sale agreements and permits previously issued.

/b/ Data has been aggregated into eight standard material groups.

/c/ The Quantity columns include sales and permit data originally reported in both tons and cubic yards. For this table, all data has been converted automatically to cubic yards.

/d/ Includes North and South Dakota.

/e/ Includes Oklahoma, Texas, and Kansas.

/f/ Includes Washington.

/g/ Includes Nebraska.

Note: Materials were disposed of under the Act of July 31, 1947 (61 Stat. 681; 30 U.S.C. 601), as amended by the Act of July 23, 1955 (69 Stat. 367).

TABLE 3-19. Recordation of mining claims, Public Law 94-579, from October 21, 1976, through fiscal year 1994--concluded

- /a/ Claims declared forfeit or abandoned and void under Public Laws 94-579, 102-381, and 103-66. On October 5, 1992, PL 102-381 imposed an annual rental fee of \$100 per claim or site in lieu of performance of assessment work. Certain "small miners" and mineral patent applicants were exempted and the fees waived. The \$100 fee was continued through fiscal year 1998 by PL 103-66. Failure to pay, qualify as a "small miner," or qualify for a waiver results in statutory abandonment and forfeiture of the affected claim or site (43 CFR 3833.1-6).
- /b/ Includes all States bordering on, or east of, the Mississippi River.
- /c/ Includes North and South Dakota.
- /d/ Includes Oklahoma, Texas, and Kansas.
- /e/ Includes Washington.
- /f/ Includes Nebraska.
- /g/ Active means that the subject claim or site is in good standing under the recording, maintenance, and assessment work statutes. It does not refer to any potential activity upon the land contained within the claim or site.
- /h/ Claims held under First Half of the Mineral Entry Final Certificate (FHFC) for a mineral patent application are exempt from the requirements to perform assessment work or to pay the annual \$100 fee. See 43 CFR 3851.5.

Note: To obtain the number of active claims at the end of the fiscal year shown in the last column, add the claims received during the fiscal year (column 2) to the active claims at the beginning of the year (column 4) and then subtract the claims closed, forfeited, or voided (column 5).

Sources: BLM's automated mining claim recordation systems for the lower 48 and Alaska; BLM State Office records and working files.

TABLE 3-21. Receipts from the disposition of public lands and resources:
May 20, 1785, through fiscal year 1995--concluded

/a/ As of June 30 through 1976; thereafter, as of September 30.	
/b/ Act of February 25, 1920 (41 Stat. 437; 20 U.S.C. 181 seq.). Collection and distribution responsibilities for receipts under this act were transferred to the Minerals Management Service as of October 1, 1983. BLM has continued to collect oil and gas pipeline rights-of-way rents; rents, bonuses, and royalties from Bankhead-Jones LU lands and National Petroleum Reserve lands; and royalties due Oklahoma for the South Half of Red River. The Mineral Leases column amounts have been changed for 1991 through 1993 and subsequent years to include all oil and gas receipts collected by BLM (some of which were previously reported under the Miscellaneous column). All other mineral and oil and gas receipts are collected and reported by MMS.	
/c/ Before 1880, includes all receipts from sale or lease of public lands and resources. After 1880, includes sales of Indian lands, revenues from grazing, rental of land, and revenues from other miscellaneous sources.	
/d/ Reflects amended data as shown in Table 3-22, fiscal year 1993 amended (included in this edition).	
NA. Not available. Offshore region was transferred from Bureau of Land Management to Minerals Management Service jurisdiction effective May 10, 1982.	
Note: Includes the collections of the Bureau of Land Management and its two predecessor organizations, the General Land Office (1785-1946) and the Grazing Service (1934-1946). For annual data for 1881-1946, see <i>GLO Statistical Appendix</i> for 1946. For annual data for 1947-1961, see <i>BLM Statistical Appendix</i> for 1961. For annual data for 1962-1970, see <i>Public Land Statistics</i> for 1970.

TABLE 3-22. Statement of receipts by source, fiscal year 1994--concluded

- /a/ Prior year adjustments exceeded current year receipts, resulting in a negative cash balance.
- /b/ "Land Utilization Project," or LU, lands purchased by the Federal Government under Title III of the Bankhead-Jones Farm Tenant Act and subsequently transferred to the Department of the Interior. Total LU land receipts from grazing and all other sources totaled \$1,708,524.
- /c/ O&C and Coos Bay Wagon Road lands.
- /d/ Includes O&C and Coos Bay Wagon Road land receipts (grazing, timber, etc.), which total \$64,136,630.
- /e/ Receipts from service charges, fines, and penalties.

OTHER RECEIPTS				
(Not specifically designated by law)-----			100.0	
/a/ Washington, D.C., Solicitor Opinion, December 9, 1985, states that Mineral Leasing Act, 30 U.S.C. 191, distribution applies to O&C and CBWR grant land revenues from oil, gas, and minerals. /b/ Distributed by the agency having jurisdiction over the lands in the same manner as prescribed for other receipts from the same lands. /c/ One-third of this amount is to reimburse Treasury for moneys appropriated for access roads and reforestation; counties receive at least 50 percent of gross receipts. Special payments to counties for fiscal years 1994 through 2003 are required by Public Law 103-66 dated August 10, 1993, as amended by Public Law 103-443 dated November 2, 1994. /d/ Amount to counties is available for payment upon receipt of tax bills. Any surplus after each 10-year period is paid into the General Fund. Special payments to counties for fiscal years 1994 through 2003 are required by Public Law 103-66 dated August 10, 1993, as amended by Public Law 103-443 dated November 2, 1994. /e/ Includes revenues from reclamation lands outside reclamation projects per Cooperative Agreement of March 8, 1972. /f/ Payment to States represents 5 percent of net receipts (which equals 4 percent of gross receipts). /g/ Distribution is the same as shown for LU lands mineral leases and permits.				

TABLE 3-27. Legal allocation of Bureau of Land Management receipts, fiscal year 1995---concluded

- /h/ Payment to the Reclamation Fund is made after deducting costs of sale, or 10 percent of revenue, whichever is less, to reimburse the Bureau of Land Management for sale expenses.
- /i/ The Bureau of Reclamation may pay costs of sale from the Reclamation Fund, or expenses may be paid and deducted by the Bureau of Land Management prior to transfer to the Reclamation Fund.
- /j/ Range improvement fees are appropriated and available to the Bureau of Land Management for constructing, purchasing, or maintaining range improvements.
- /k/ Payment to State represents receipts in excess of the actual cost of administering the grazing program in Alaska.
- /l/ Appropriated and available to the Bureau of Land Management to lease lands for grazing purposes.
- /m/ Payments to counties, the General Fund, and the Range Improvement Fund represent 25 percent and 50 percent, respectively, of net receipts.

Note: Collection and distribution responsibilities for receipts under the Mineral Leasing Act of February 25, 1920, (41 Stat. 437; 30 U.S.C. 181 et seq.) were transferred to the Minerals Management Service as of October 1, 1983.

Part 4

RECREATION AND LEISURE ACTIVITIES

The Bureau of Land Management (BLM) outdoor recreation mission is to sustain healthy land and water resources while providing quality visitor services. BLM's overall vision for outdoor recreation is "Visitors renewing their relationships with the land and respecting local cultures while enjoying quality recreation activities."

BLM provides resource-dependent recreational opportunities in a variety of settings that typify the vast western landscapes of the 11 public land states. These diverse settings range from the tundra in Alaska to the deserts of the Southwest; and from the old growth forests of the Northwest to the plateaus and plains of the Rocky Mountain states. As a national provider of recreation, BLM focuses on its niche - providing resource-based versus facilities-based recreation and tourism opportunities. BLM emphasizes visitors' freedom to pursue unstructured recreation opportunities as long as the visitor accepts the responsibility to use public lands wisely and to respect other visitors and local residents.

Visitors participate in a variety of activities on public lands. Most individuals, groups, and families participate in more than one activity per visit. Visitor use information described by major groupings of these activities is found in Table 4-1. BLM stresses the use of education and interpretation to encourage visitors' knowledge, appreciation, and safe enjoyment of public land resources. Responsible use is encouraged by BLM and its partners through land use ethics programs such as *Tread Lightly!* and *Leave No Trace!*. In addition, BLM is also working with other agencies and partner organizations to improve accessibility to public lands and recreation facilities for all visitors, including people with disabilities and diverse cultural backgrounds.

Recreation and leisure opportunities and the resources they are derived from play a critical role in the growing local community and national tourism economies. BLM provides recreation opportunities in areas having national, as well as regional and local, importance. Areas of national importance, designated by Congress or the Secretary of the Interior, include 33 National Wild and Scenic Rivers (2,022 miles); 136 Wilderness Areas (5,227,063 acres) and 622 Wilderness Study Areas (17.4 million acres); 37 National Recreation, Historic, or Scenic Trails (4,869 miles); 1 National Recreation Area (1,000,000 acres); 1 National Scenic Area (65,280 acres), and 64 National Back Country Byways (3,179 miles).

Recreational opportunities of regional and local importance are provided in a variety of settings: non-fee sites (see Table 4-4), rivers (5,763 miles) not in the Wild and Scenic River System, and inventoried trails (7,468 miles) not in the National Trail System. In addition, fish and wildlife species found on BLM lands produce a variety of primary and secondary benefits. Some visitors to public lands benefit directly by participating in consumptive activities (i.e., hunting and fishing; see Table 4-2) and nonconsumptive wildlife-related activities (e.g., birdwatching, camping, hiking, and photography; see Table 4-3). Secondary benefits from wildlife-related activities on public lands accrue to community businesses that benefit from the sale of equipment, services, food, lodging, and transportation to public land visitors, and to state wildlife agencies that manage wildlife populations through both consumptive and non-consumptive activities.

While the BLM's focus is on providing resource-based recreation and tourism opportunities, BLM does provide facilities where necessary to protect resources and to serve as staging areas for resource-based recreation use. For the most part, facilities are not the attraction in and of themselves. In some high-use areas, visitors are charged a recreation use fee or entrance fee to help cover the cost of facility maintenance and resource protection (see Table 4-5 for designated fee site information). Fees in this category are called Recreation Use Permits.

Special recreation permits are also used as a mechanism to protect resources and reduce visitor conflicts. Special recreation permits are issued to individuals or groups participating in commercial or competitive activities on BLM-managed lands. Special recreation permits may also be required for special management areas and group events to protect resources and public health and safety. Table 4-6 identifies the type and number of permits BLM issues and revenue generated from these permits during Fiscal Year 1994 and Fiscal Year 1995.

Tables been revised from the Fiscal Year 1993 Public Lands Statistics report to better describe recreation opportunities and use on BLM-administered lands. The information in Tables 4-1, 4-4, 4-5, and 4-6 was derived from the BLM Recreation Management Information System database. Additional information from this database is available upon request from your local BLM office or the BLM Headquarters office in Washington, DC. Information in Tables 4-2 and 4-3 is from the *National Survey of Fishing, Hunting, and Wildlife-Related Recreation* published by the U.S. Fish and Wildlife Service.

TABLE 4-1. Estimated recreational use of public lands administered by the Bureau of Land Management by major activity grouping, fiscal year 1994

Visitor use activities	Number of participants (thousands)	Visitor hours (thousands)	Visitor days (thousands)/a/
Camping	9,138	199,405	16,617
Fishing	4,590	21,226	1,769
Hunting	5,340	50,126	4,177
Miscellaneous land- based activities	22,477	55,408	4,617
Miscellaneous water- based activities	3,903	8,312	693
Motorized boating	3,026	10,289	857
Off-highway vehicle Travel	7,919	34,966	2,914
Motorized winter sports	250	1,391	116
Non-motorized boating	3,453	22,983	1,915
Non-motorized travel	10,144	44,639	3,720
Non-motorized winter sports	842	4,481	373
Driving For pleasure	8,116	29,129	2,427
Total	/b/	482,355	40,195
Number of recreational visits not requiring a permit:			49,671,000
Number of visits requiring a Special Recreation Permit:			<u>1,072,015</u>
Total recreational visits in fiscal year 1994:			50,743,015

/a/ Visitor days equal visitor hours divided by 12.

/b/ The number of participants has not been totaled because some visitors participate in more than one activity per visit.

Note: This report replaces fiscal year 1993 Table 34. Estimates are for visits by recreationists not requiring a permit. See Tables 4-5 and 4-6 for information on recreational use requiring a permit.

Part 5

PRESERVATION OF SIGNIFICANT CULTURAL AND NATURAL FEATURES

The Federal Government is responsible for preserving and protecting threatened and endangered species; wild free-roaming horses and burros; significant archaeological, paleontological, and historical sites; areas of critical environmental concern and other outstanding natural areas; and wilderness or wilderness study areas.

BLM strives to improve efficiency by consolidating lands into manageable areas through land exchanges (Table 5-1). These land transactions also improve the management of natural resources by protecting endangered species, promoting biological diversity, increasing recreational opportunities, and preserving archaeological and historical sites.

Bureau-administered permanent or seasonal habitats on public lands are home for over 3,000 species of mammals, birds, reptiles, fish, and amphibians. Priority treatment is given to federally listed threatened or endangered plant and animal species (Tables 5-2 and 5-3) that depend on the public lands for all or part of their habitat needs.

The Bureau administers the Wild Free-Roaming Horses and Burros Act (Public Law 92-195, as amended). This Act provides for the protection, management, and control of wild horses and burros on the public lands. A major responsibility under the Act is to preserve a thriving natural ecological balance on the range. To do so, it is necessary to remove excess wild horses and burros, which are then offered for adoption. Tables 5-4 and 5-5 portray wild horse and burro populations and adoptions.

The Bureau of Land Management is steward for the Federal government's largest, most culturally diverse, and scientifically most varied and important body of cultural resources. To carry out this stewardship responsibility, the Bureau's cultural resource management program is set up to inventory, evaluate, plan for, and manage cultural and paleontological resources on public lands under its jurisdiction.

The major objectives of the cultural resource management program are to manage archaeological and historical resources for the widest range of public uses, including recreational, educational, scientific, socio-cultural, and aesthetic benefits. In addition, these resources contribute to enhancing local economies and expanding job opportunities, particularly in rural areas. Cultural resources, specifically the data from archaeological, historical and paleo-environmental studies, can also enhance ecosystem management by providing the time-depth perspective that scientists and land managers need to make wise decisions on maintaining or restoring ecosystem health. BLM has inventoried over 11 million acres for cultural resources and has recorded over 190,000 properties (Table 5-6).

The Bureau provides special management for 25 million acres of lands designated as Areas of Critical Environmental Concern, Research Natural Areas, National Conservation Areas, and National Natural Landmarks (Table 5-7). The Bureau also manages over 5.2 million acres of designated wilderness lands and 622 wilderness study areas encompassing 17.4 million acres (Tables 5-8, 5-9, and 5-10).

/a/ Multiple listings are included for those areas designated or affected by more than one Public Law, managed by more than one agency, located in more than one administrative unit, or located in more than one State.

/b/ The Bureau of Land Management office that has jurisdiction over the wilderness area.

Note: Data for 1994 and 1995 is identical, so only 1995 data is being published.

Part 6

PUBLIC HEALTH, SAFETY, AND RESOURCE PROTECTION

The Bureau of Land Management (BLM) has a variety of programs to protect public health, safety, and property. The Bureau is responsible for protecting public lands from illegal dumping of hazardous materials, theft of Federal property, misuse of resources, and wildfire. In a typical year, the Bureau helps suppress several thousand wildfires that burn well over a half million acres of Federal and State public lands. When hazardous substances are discovered on public lands, the BLM acts quickly to eliminate risks to the public.

Table 6-1, provides information on the number of wildfires and acres burned on both BLM lands and other lands that BLM protects through agreements with local fire protection agencies. During fiscal year 1994, a substantial increase in wildfires occurred.

Table 6-2, Capital Improvements on Public Lands, is new. Capital improvements enhance the ability of the public to use their public lands. The Bureau has made large capital investments to meet the ever-increasing demands of customers. Very few new capital improvements are made annually, but considerable resources are devoted to maintaining existing investments to assure public health and safety.

Table 6-3, Hazardous Waste Sites on Public Lands, is also new. The public lands provide opportunities for a variety of commercial uses and, sometimes, illegal activities. Both commercial and illegal activities have created hazardous waste sites on public lands. Over 60 percent of these sites are the result of commercial uses, with landfills, mining operations, and mill sites accounting for almost half of all hazardous waste sites reported to date. Airstrips and oil and gas sites make up the remainder of hazardous waste sites resulting from commercial uses of the public lands. Illegal activity (trespass dumping) accounts for the remaining hazardous waste sites on public lands.

TABLE 6-1. **Fires on or threatening BLM lands, fiscal year 1994**

/a/ Land producing or capable of producing wood products such as sawtimber, posts, poles, etc., and not withdrawn from timber use.

/b/ Land not capable of yielding wood products, or commercial forestland withdrawn from timber use.

/c/ Land that has never supported forests or that has been developed for nonforest use.

/d/ BLM lands only. Denotes net resource value change (NVC) in thousands of dollars; includes damage to timber, watershed values, recreation areas and facilities, range and wildlife forage, and improvements. A positive value indicates an increase in resource values (e.g., the burning of an area that was already scheduled for a prescribed burn to improve vegetation condition).

/e/ Includes North and South Dakota.

/f/ Includes the State of Washington.

Note: Non-BLM includes other Federal lands, as well as State, privately owned, and other non-Federal lands.

Washington	5	4	2	0	2	2
Wyoming	10	10	1	3	0	0
Total	721	620	81	85	9	9

/a/ Includes sites reported and sites archived during the fiscal year.

/b/ Includes work done by the Bureau of Land Management, other Federal and State agencies, and responsible parties.

/c/ Cases opened and potentially actionable under the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (CERCLA), commonly known as the Superfund.

/d/ NFRAP designation is commonly given to cases closed and administratively archived.

/e/ Includes CERCLA multiphase investigations, monitoring, and searches for responsible parties.

/f/ Removal actions are relatively short-term, rapid responses to a release or threat of release.

/g/ Remedial actions are longer-term responses consistent with a permanent remedy.

GLOSSARY

ACEC:

Area of Critical Environmental Concern. ACECs are areas where special management is needed (a) to protect important historical, cultural, scenic, and natural areas or (b) to identify areas hazardous to human life and property.

Acquired lands:

Lands in Federal ownership that were obtained by the Government through purchase, condemnation, or gift; or by exchange. One category of public lands. (See Public lands.)

Administrative site:

A reservation of public lands for use as a site for public buildings, ranger stations, or other administrative facilities.

Administrative State:

Bureau of Land Management State Office having administrative jurisdiction. For example, the Montana State Office has administrative jurisdiction for Montana, North Dakota, and South Dakota.

Allocation of receipts:

Determination of moneys paid, or to be paid, to other funds, counties, or States out of receipts collected during the fiscal year reported, as required and/or specified by law.

ANCSA:

Alaska Native Claims Settlement Act of December 18, 1971 (Public Law 92-203, 85 Stat. 688).

Animal unit:

A standardized unit of measurement for range livestock that is equivalent to one cow, one horse, five sheep, five goats, or four reindeer, all over 6 months of age.

Animal unit month (AUM):

A standardized unit of measurement of the amount of forage necessary for the complete sustenance of one animal unit for a period of 1 month; also, a unit of measurement of grazing privileges that represents the privilege of grazing one animal unit for a period of one month.

Application:

A formal request for rights to use, or obtain eventual title to, public lands or resources.

Archaeological and historical site:

A site that contains either objects of antiquity or cultural values relating to history and/or prehistory that warrant special protection.

Big game habitat:

Habitat areas used by big game animals at some time during their yearly life cycle.

Boating:

Includes both motorized and nonmotorized boats. Motorized boating includes tour boats, power boating, river running (commercial and/or noncommercial), etc. Nonmotorized boating includes sailing, canoeing and kayaking, and river running (commercial and noncommercial), and other nonmotorized boats such as rowboats.

Bonus:

The cash consideration paid to the United States by the successful bidder for a mineral lease, such payment being made in addition to the rent and royalty obligations specified in the lease.

Cadastral survey:

A survey relating to land boundaries and subdivisions made to create units suitable for management or to define the limits of title. The distinguishing features of the cadastral surveys are the establishment of monuments on the ground to define the boundaries of the land and their identification in the records by field notes and plats.

Camping:

Includes auto and trailer camping, along with other camping at developed sites, and backcountry camping.

Candidate species:

Species designated as candidates for listing as threatened or endangered by the Fish and Wildlife Service or National Marine Fisheries Service. (Also see Endangered species and Threatened species.)

Carey Acts:

The acts of August 18, 1894 (28 Stat. 372), and March 15, 1910 (36 Stat. 237, 43 U.S.C. Sec. 643), which provide for grants of desert lands to States for disposition to bona fide settlers.

Ceded Indian lands:

Public lands to which Indian tribal title was relinquished to the United States by the Indians on condition that part of all of the proceeds from their sale or other disposition would be conveyed into the Treasury and held in trust for the Indians.

Certification:

The act of final approval of a State selection by the Director; also, the document that passes title to the selected lands to the State; also, a document that attests to the truth or authenticity of papers attached to it.

CFR:

Code of Federal Regulations.

Color-of-Title Act:

The Act of December 22, 1928 (43 U.S.C. Sec. 1068), as amended. Under the terms and provisions of this Act, a patent may be issued for a parcel of not more than 160 acres of public lands in instances where claim to the lands has been based on a written instrument containing defective evidence of title. The parcel must have been possessed in good faith by a claimant, his ancestors, or grantors for a period of more than 20 years.

Color-of-title entry:

A cash entry made by an applicant under the Color-of-Title Act.

Competitive mineral leasing:

Refers to leases issued by the United States where there are known minerals or where inference of probable mineralization can be drawn from knowledge of the geology of the land. The lands are offered for lease by competitive bidding after publication of the offer of the lands for leasing. The lease is issued to the highest bidder, who is determined at a sale by public auction. (See also Leasable minerals and Noncompetitive mineral leasing.)

Contract fire protection:

Fire protection given lands owned, leased, or controlled by the United States and administered by the Bureau of Land Management on which complete fire protection is extended through the use of fire protection forces and facilities contracted for by the Bureau.

Crossing permit:

An authorization issued for trailing livestock across Federal range for proper and lawful purposes.

Cultural resources:

Remains of human activity, occupation, or endeavor, reflected in districts, sites, structures, buildings, objects, artifacts, ruins, works of art, architecture, and natural features that were of importance in past human events. These resources consist of (1) physical remains, (2) areas where significant human events occurred, even though evidence of the event no longer remains, and (3) the environment immediately surrounding the actual resource.

Desert Land Entry:

An entry of irrigable arid agricultural public lands for the purpose of reclamation, irrigation, and cultivation in part.

Disposition:

A transaction which leads to the transfer of title of public lands, and/or resources upon or in these lands, from the Federal Government.

Eastern States:

Includes all states bordering on or east of the Mississippi River.

Endangered species:

Any animal or plant species in danger of extinction throughout all or a significant portion of its range. (Also see Candidate species and Threatened species.)

Entry:

An application to acquire title to public lands.

Entry, allowed:

An application to acquire title to public lands that has been approved, either as an original entry or a final entry.

Entry, cash:

A final entry where the applicant pays cash or its equivalent.

Entry, commuted:

A final entry where the applicant pays the statutory price for the lands in consideration for reduction of residence and improvement requirements.

Entry, final:

An allowed entry where the applicant has complied with all the requirements of law and regulations.

Entry, original:

An allowed entry where the applicant is permitted to proceed with earning title to the land.

Entry, unperfected:

An allowed original entry where the applicant has not met all of the requirements of the law and/or regulations to permit making final entry for patent.

Exchange:

A transaction whereby the Federal Government receives land or interests in land in exchange for other land or interests in land.

Exchange lease (coal):

An exchange of coal resources when it is in the public interest to shift the impact of mineral operations from leased lands, or portions of leased lands, to currently unleased lands to preserve public resource or social values, and to carry out Congressional directives authorizing coal lease exchanges.

Family unit:

An installation with camping, picnicking, or trailer facilities to serve the needs of one family-sized group.

Federal land:

All classes of land owned by the Federal Government.

Field examination:

An on-the-ground investigation of selected public lands with regard to valuation, land use, application for entry, mineralization, etc.

Fire suppression:

Fire control activities concerned with controlling and extinguishing a fire, starting at the time the fire is discovered.

Fishable stream:

A stream that currently supports a sport fishery on public lands. These streams are not necessarily accessible to the public.

Fishing:

Includes fishing from the shore, and from a boat when the boating is secondary to the fishing activity. Included are warm-water, cold-water, and ice fishing; crabbing; seining; and gigging.

FLPMA:

Federal Land Policy and Management Act of October 21, 1976 (Public Law 94-579, 90 Stat. 2743), commonly called the "Organic Act" for the Bureau of Land Management.

Force account fire protection:

Fire protection given lands owned, leased, or controlled by the United States and administered by the Bureau of Land Management on which complete fire protection is extended through the use of the protection forces and facilities supervised and operated by the Bureau.

Free-use permit:

A permit to a governmental agency or nonprofit group to use mineral materials, such as sand and gravel, or other resources at no charge.

Grazing district:

An administrative subdivision of the rangelands under jurisdiction of the Bureau of Land Management established pursuant to Section 3 of the Taylor Grazing Act to facilitate management of rangeland resources.

Grazing-fee year:

March 1 of a given calendar year through the last day in February of the following year.

Grazing lease:

An authorization that permits the grazing of livestock on public lands outside the grazing districts during a specified period of time (Section 15 of the Taylor Grazing Act).

Grazing lease lands:

Lands outside grazing districts that are owned, leased, or otherwise controlled by the United States and administered by the Bureau of Land Management, and that are subject to leasing for grazing purposes under the Alaska Grazing Law of March 4, 1927; Section 15 of the Taylor Grazing Act of June 28, 1934; the Oregon Timber Conservation Act of August 28, 1937; or the Reindeer Act of September 1, 1937.

Grazing permit:

An authorization that permits the grazing of a specified number and class of livestock on a designated area of grazing district lands during specified seasons each year (Section 3 of the Taylor Grazing Act).

Hardrock minerals:

Locatable minerals that are neither leasable minerals (oil, gas, coal, oil shale, phosphate, sodium, potassium, sulphur, asphalt, or gilsonite) nor saleable mineral materials (e.g., common variety sand and gravel). Hardrock minerals include, but are not limited to, copper, lead, zinc, magnesium, nickel, tungsten, gold, silver, bentonite, barite, feldspar, fluorspar, and uranium.

Homestead entry, original:

An original entry under the homestead laws; also, the first homestead entry that was made by an individual; also, a homestead entry that was made pursuant to the first homestead law, the Act of May 20, 1862 (12 Stat. 392) as codified in Sec. 2289 of the Revised Statutes. (Also see Entry, original; Stockraising homestead.)

Hunting:

Includes big- and small-game hunting, waterfowl hunting, and trapping.

Indian allotment:

An allocation of a parcel of public lands or Indian reservation lands to an Indian for individual use; also, the lands so allocated.

Inland water area:

Includes permanent inland water surface, such as lakes, ponds, and reservoirs having 40 acres or more of the area; streams, sloughs, estuaries, and canals 1/8 of a statute mile or more in width; deeply indented embayments and sounds, other coastal waters behind or sheltered by headlands, or islands separated by less than 1 nautical mile of water; and islands having less than 40 acres of area.

Lake (or pond):

A natural standing body of water.

Land Area:

Includes dry land and land temporarily or partially covered by water, such as marshlands, swamps, and river flood plains; streams, sloughs, estuaries, and canals less than 1/8 of a statute mile in width; and lakes, reservoirs, and ponds having less than 40 acres of water-surface area.

Lease:

An authorization to possess and use public land for a period of time sufficient to amortize capital investments in the land. (See also Competitive leasing and Noncompetitive leasing).

Leasable minerals:

Oil and gas; oil shale; coal; potash; phosphate; sodium; sulfur in Louisiana and New Mexico; gold, silver, and quicksilver in certain private land claims; and silica deposits in certain parts of Nevada.

License:

An authority granted by the United States to do a particular act or series of acts upon public lands without the licensee possessing any estate or interest in the land itself.

Locatable minerals:

Whatever are recognized as minerals by the standard authorities, whether metallic or other substances, and are found in sufficient quantity and quality to justify their location under the Mining Law of 1872, as amended. (See also Hardrock minerals.)

Lode claim:

A mining claim located for "veins or lodes of quartz or other rock in place" (30 U.S.C. 23). Lode claims may extend for 1,500 feet along the strike of the vein or lode and to a maximum of 300 feet on either side of the vein or lode.

Logical mining unit (LMU):

An area of land in which the recoverable coal reserves can be developed in an efficient, economical, and orderly manner as a unit with due regard to conservation of coal reserves and other resources. An LMU may consist of one or more Federal coal leases and may include intervening or adjacent lands in which the United States does not own the coal. All lands in an LMU are under the control of one operator or lessee, can be developed as a single operation, and are contiguous. Formation of LMUs was authorized by the Federal Coal Leasing Amendments Act of 1976, which amended the Mineral Leasing Act (30 U.S.C. 181 et seq.).

LU project lands:

Privately owned submarginal farmlands incapable of producing sufficient income to support the family of a farm owner and purchased under Title III of the Bankhead-Jones Farm Tenant Act of July 22, 1937. These acquired lands became known as "Land Utilization Projects" and were subsequently transferred from jurisdiction of the U.S. Department of Agriculture to the U.S. Department of the Interior. They are now administered by the Bureau of Land Management.

MBF:

Thousand board feet. A board foot is a unit of lumber measurement 1 foot long, 1 foot wide, and 1 inch thick, or its equivalent. It is the standard unit of measurement in the logging and lumber industry by which standing timber is measured and sold and manufactured lumber is merchandised.

Millsite: A site located on nonmineral land and used for mining or milling purposes (30 U.S.C. 42). Millsites are limited to 5 acres and may be located either by metes and bounds or by legal subdivision.

Mineral:

Organic and inorganic substances occurring naturally, with characteristics and economic uses that bring them within the purview of mineral laws; a substance that may be obtained under applicable laws from public lands by purchase, lease, or preemptive entry.

Mineral materials:

Minerals such as common varieties of sand, stone, gravel, pumice, pumicite, and clay that are not obtainable under the mining or leasing law but that can be obtained under the Materials Act of 1947, as amended.

Mineral permit:

A permit that authorizes prospecting for certain leasable minerals on public lands described in the permit.

Mineral reservation:

Retention of the mineral estate by the grantor of a property; the grantee or patentee owns the land surface but not the minerals.

Mining claim:

A mineral entry and appropriation of public land under the Mining Law of 1872, as amended (30 U.S.C. 22 et seq.). There are four types of mining claims: lode claims, placer claims, millsites, and tunnel sites. Only tunnel sites may not be patented. A valid lode or placer claim contains a discovery of a valuable mineral deposit subject to location under the Mining Law of 1872. A valid millsite is one that is being used for the support of a mining or milling operation. A valid tunnel site is one that is being diligently worked and maintained.

Mining claim location:

The staking and recordation of a lode or placer claim, millsite, or tunnel site on public land. A valid location is one that is properly located, recorded, and maintained under Section 314 of the Federal Land Policy and Management Act of October 21, 1976, and the mining laws of the State where the claim or site is located.

MMBF:

Million board feet. (See MBF.)

Motorized recreation travel (other than off-road vehicle):

Includes driving for pleasure (driving or riding in motorized land-based vehicles on roads). Vehicles include cars, vans, campers, mopeds, and motorcycles. The primary purpose of the riding or driving, train or bus touring (riding in buses, trains, and similar vehicles), and other motorized travel activities must be for recreation. This does not include interstate highway traffic, nor does it include sightseeing on major throughroads *unless* there is quantitative evidence (activity participation survey) that the public lands are being used for these recreation purposes.

Multiple use:

A combination of balanced and diverse resource uses that takes into account the long-term needs of future generations for renewable and nonrenewable resources, including, but not limited to, recreation, range, timber, minerals, watershed, and wildlife and fish, along with natural scenic, scientific, and historical values.

Noncompetitive mineral leasing:

Refers to leases issued to qualified applicants for lands not specifically known or presumed to contain mineral or petroleum deposits in quantity. Such leases can be issued on a first-come, first-served basis or through a random drawing procedure. (See also Competitive mineral leasing and Leasable minerals.)

Nonconsumptive trips:

Wildlife-associated recreation which is not fishing, hunting or trapping. Nonharvesting activities, such as feeding, photographing and observing fish and other wildlife, picnicking, camping, etc. are nonconsumptive wildlife activities.

Nonexclusive sites:

Mineral material disposal areas, such as community pits or common use areas, that are designated, maintained, and managed by the Bureau of Land Management and from which many small disposals are authorized under the Materials Act of 1947, as amended.

Nonmotorized recreation travel:

Activities that require nonmotorized equipment. Such activities include bicycling, horseback riding, running or jogging, sand sailing, backpacking, hiking, or walking for pleasure.

Nonoperating revenue:

Receipts of a miscellaneous nature, such as incidental receipts from taxes, fines, etc., that are not related specifically to, or received in the process of, conducting normal and regular business of the Bureau of Land Management as it pertains to the management of public lands and resources.

Nonuse:

An authorization issued to an applicant for nonuse of grazing privileges in whole or part; usually issued for one grazing season.

O&C lands:

Public lands in Western Oregon that were granted to the Oregon central railroad companies (later the Oregon & California Railroad Company) to aid in the construction of railroads but that were later forfeited and returned to the Federal Government by revestment of title. The term "O&C" lands, as often used, also refers to the reconveyed Coos Bay Military Wagon Road lands, which are public lands in Western Oregon that were once granted to the State of Oregon to aid in the construction of the Coos Bay Military Wagon Road but that were later forfeited and returned to Federal ownership by reconveyance.

Obligations:

Payments, and amounts which the Government is obligated to pay, for goods and services received (or contracted for future delivery) made from appropriations during the fiscal year indicated.

Off-road vehicle (ORV):

Any vehicle capable of, or designed for, travel on or immediately over land, water, or other natural terrain, deriving motive power from any source other than muscle. The term excludes (1) any nonamphibious registered motorboat; (2) any fire, emergency, or law enforcement vehicle while being used for official or emergency purposes; and (3) any vehicle whose use is expressly authorized by a permit, lease, license, agreement, or contract issued by the authorized officer or otherwise approved.

Off-road vehicle (ORV) travel:

Driving or riding in off-road areas (including trails). The type of vehicle and its capabilities are secondary to where and how the vehicle is used. The primary purpose of the riding or driving must be for recreation. Off-road travel includes off-road motorcycle and scooter driving, snowmobiling, etc.; specialized craft such as all-terrain vehicles, swamp buggies, and four-wheel drives; and conventional vehicles for off-road or trail purposes.

Operator:

An individual, group, association, or corporation authorized to conduct livestock grazing on public lands.

Original survey:

A cadastral survey that creates land boundaries and establishes them for the first time.

Paleontology:

A science dealing with the life of past geological periods as known from fossil remains.

Patent:

A Government deed; a document that conveys legal title to public lands to the patentee.

Permit:

A revocable authorization to use public land for a specified purpose for up to 3 years.

Placer claim:

A mining claim located for "all forms of deposits, excepting veins of quartz or other rock in place" (30 U.S.C. 35). A placer claim must generally be located by legal subdivision in conformance with the public land survey rather than by metes and bounds. A placer claim is limited to 20 acres per individual, although a placer claim may be up to 160 acres for an association of eight or more persons. Corporations are limited to 20-acre claims.

Plugged and abandoned:

This refers to new wells that have been drilled to total depth during the reporting period and did not encounter oil or gas in paying quantities. (Approved plugging and abandonment may or may not have yet occurred.)

Private leases:

Private leases (acquired) refer to oil and gas leases between private parties that are in existence at the time the Federal government purchases the mineral estate along with the surface as part of a Federal Government acquisition, for which a BLM serial number is assigned.

PLO:

Public land order. An order affecting, modifying, or canceling a withdrawal or reservation that has been issued by the Secretary of the Interior pursuant to powers of the President delegated to the Secretary by Executive Order 9146 of April 24, 1942, or 9337 of April 24, 1943.

Producible completions (oil and gas):

Separate completions existing on producible (i.e., physically and mechanically capable of production of oil and/or gas) or service wells at the end of the reporting period; or, separate completions that are made during the reporting period on newly drilled wells.

Producible leases:

Leases that have at least one producible well actually located within the lease, as of the last day of the reporting period; includes producible leases that received allocated production from wells located off the lease and which have no producible wells actually located on the lease, as of the last day of the reporting period.

Producible and service holes:

Wells with one or more producible oil or gas service completions.

Protraction diagram:

A diagram representing the plan of extension of cadastral surveys over unsurveyed public lands based upon computed values for the corner positions.

Public auction:

A sale of land through competitive, usually oral, bidding.

Public domain lands:

Original public domain lands that have never left Federal ownership; also, lands in Federal ownership that were obtained by the Government in exchange for public domain lands or for timber on public domain lands. One category of public lands.

Public lands:

Any land and interest in land owned by the United States that are administered by the Secretary of the Interior through the Bureau of Land Management, without regard to how the United States acquired ownership, except for (1) lands located on the Outer Continental Shelf, and (2) lands held for the benefit of Indians, Aleuts, and Eskimos. Includes public domain and acquired lands. (See definitions.)

Public land States:

Refers to the 30 states that made up the public domain at its greatest extent. These states are Alabama, Alaska, Arizona, Arkansas, California, Colorado, Florida, Idaho, Illinois, Indiana, Iowa, Kansas, Louisiana, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, New Mexico, North Dakota, Ohio, Oklahoma, Oregon, South Dakota, Utah, Washington, Wisconsin, and Wyoming.

R&PP:

Recreation and Public Purposes Act. (See definition.)

Receipts:

All money received and credited to the proper account as required by law. Does not include collections held by the U.S. Treasury pending future determination of disposition by the Bureau of Land Management.

Reclamation homestead entry:

An entry initiated under the Act of June 17, 1902 (32 Stat. 338; 43 U.S.C., Sec. 43 et seq.), that provides for the issuance of patents to applicants who settle upon and improve agricultural public land parcels not exceeding 160 acres within reclamation projects.

Recreation and Public Purposes Act:

Act of June 14, 1926 (44 Stat. 741), as amended, that provides for the purchase or lease of public lands by (a) Federal, State, or local governmental units for any activity that serves the interest of the general public consistent with public policy or (b) nonprofit organizations if the lands are to be used for recreation purposes in an established or proposed recreation project area.

Recreation visit:

A visit to Bureau of Land Management lands and waters by an individual for the purpose of engaging in any activities, except those that are part of or incidental to the pursuit of a gainful occupation, whether for a few minutes or a full day.

Rental:

The amount paid periodically (usually annually) by the holder of a lease or right-of-way grant for the right to use land or resources for the purposes set out in the lease or grant.

Reserved lands:

Federal lands that are dedicated or set aside for a specific public purpose or program and that are, therefore, generally not subject to disposition under the operation of all of the public land laws. (See also Revocation and Withdrawal.)

Reservoir:

A man-made, standing body of water whose water levels may be controlled.

Resurvey:

A cadastral survey to identify and re-mark the boundaries of lands that were established by a prior survey.

Revocation:

Generally, an action that cancels a previous official act; specifically, an action that cancels a withdrawal. Revocation is usually done in conjunction with restoration, which opens the public lands.

Right-of-way:

A permit or an easement that authorizes the use of lands for certain specified purposes, such as the construction of forest access roads or a gas pipeline.

Riparian habitat:

Areas of land directly influenced by permanent water. Lakeshores and streambanks are typical riparian areas. Excluded are such sites as ephemeral streams or washes that do not exhibit the presence of vegetation dependent upon free water in the soil. Wetland and riparian areas are especially important because they are a critical source of biological diversity.

Saleable minerals:

Sand, gravel, stone, soil, and other common-variety mineral materials disposed of through sales at not less than their appraised price or through free-use permits (see definition).

Sale of materials:

A competitive or noncompetitive sale by contract at not less than the appraised price of materials (timber and mineral) under the Materials Act of 1947, as amended.

Santini-Burton Act:

Act of December 23, 1980 (Public Law 96-586, 94 Stat. 3381), that provides for the orderly disposal of Federal lands in Clark County, Nevada, and also provides for the acquisition of environmentally sensitive lands in the Lake Tahoe Basin.

Sawtimber:

Logs of sufficient size and quality to be suitable for conversion into lumber or veneer.

Section 3:

(See Grazing permit.)

Section 15:

(See Grazing lease.)

Service completion or hole:

Separate service completions that are for the benefit of oil and gas operations, e.g. water disposal, salt water disposal, water injection, gas injection, water source, steam injection, or monitoring.

Site-based recreation activities (other than camping, hunting, or nonmotorized travel):

Includes sightseeing (the viewing of scenery; natural, historic, and archaeological sites; landscapes; or other features), picnicking, nature study and photography, mountain climbing and caving, gathering and collecting activities (mushrooms, rocks, and flowers), interpretation (guided and unguided touring, talks, and programs), and other environmental education events.

Small game habitat:

Habitat areas used by small game animals (including upland game species) at some time during their yearly life cycle.

Small tract lease:

A parcel of public lands of 5 acres or less that has been found to be chiefly valuable for sale or lease as a home, cabin, camp, recreational, convalescent, or business site under the Act of June 1, 1938.

Special land use permit:

A permit that authorizes the use of public land for a purpose not specifically authorized under other regulation or statute.

Special surveys:

Cadastral surveys that involve unusual application of, or departure from, the rectangular system. They often carry out the provisions of a special legislative act and include such work as small tract surveys; townsite surveys; island and omitted land surveys; homestead, homesite, trade and manufacturing site surveys; also the survey and resurvey of portions of sections. Alaska special surveys are metes and bounds surveys of areas settled upon or applied for under certain special land laws applicable to the State of Alaska.

State Office:

The first-level administrative unit of the Bureau of Land Management field organization. It comprises a geographic area consisting of one or more States.

Stockraising homestead:

A homestead not exceeding 640 acres initiated under the Stockraising Homestead Act, which provided for the homesteading of lands chiefly valuable for grazing and raising forage crops. Minerals in these lands were reserved to the United States. The provisions for stockraising homesteads were by implication repealed by the Taylor Grazing Act.

Stream with fishery potential:

A stream that currently does not support a sport fishery but that could be changed into a fishable stream with management (i.e., stocking, removal of barriers, etc.).

Sustained yield:

The achievement and maintenance in perpetuity of a high-level annual, or regular periodic, output of the various renewable resources of the public lands consistent with multiple use.

Threatened species:

Any animal or plant species likely to become endangered within the foreseeable future throughout all or a part of its range. (Also see Candidate species and Endangered species.)

Trespass:

An unauthorized use of Federal lands and/or resources.

Tunnel site:

A site located for the development of a vein or lode or for the anticipated discovery of previously unknown veins or lodes. The locator of a tunnel site is given the right to all veins cut by the tunnel within 3,000 feet of its portal, and to 1,500 feet along the length of each blind vein or lode cut. A tunnel site location lapses if not worked for a period of at least 6 months.

Unlawful enclosures or occupancy:

Enclosures of public lands made or maintained by any party, association, or corporation without valid claim.

U.S.C.:

United States Code.

Vacant public land:

Public land that is not reserved, appropriated, or set aside for a specific or designated purposes. Such land is not covered by any non-Federal right or claim other than permits, leases, rights-of-way, and unreported mining claims.

Visitor hour:

A unit used to measure duration of recreation use. A visitor hour involves the presence of a person on a recreation area or site for the purpose of engaging in recreation activities for either continuous, intermittent, or simultaneous periods of time aggregating 60 minutes.

Water-based recreation activities (other than boating or fishing):

Includes swimming, general water play, waterskiing, ski jumping, platter riding, and other similar activities that occur outside a boat.

Waterfowl habitat:

The total acreage of all wetlands, lakes, ponds, and reservoirs on BLM lands. Uplands used for nesting are not included.

Wetlands:

Permanently wet or intermittently flooded areas where the water table (fresh, saline, or brackish) is at, near, or above the soil surface for extended intervals, where hydric wet soil conditions are normally exhibited, and where water depths generally do not exceed 2 meters (about 6 1/2 feet). Marshes, shallows, swamps, muskegs, lake bogs, and wet meadows are examples of wetlands.

Wild free-roaming horses and burros:

All unbranded and unclaimed horses and burros using public lands as all or part of their habitat.

Wilderness:

An area of undeveloped Federal land retaining its primeval character and influence, without permanent improvement or human habitation, that is protected and managed so as to preserve its natural conditions and that (1) generally appears to have been affected primarily by the forces of nature, with the imprint of man's work substantially unnoticeable; (2) has outstanding opportunities for solitude or a primitive and unconfined type of recreation; (3) has at least 5,000 acres of land or is of sufficient size as to make practicable its preservation and use in an unimpaired condition; and (4) may also contain ecological, geological, or other features of scientific, educational, scenic, or historical value.

Winter sports:

Includes ice skating, skiing (downhill and cross-country), snowshoeing, sledding, snowmobiling, and tobogganing as well as activities such as snow sculpture and general snow play.

Withdrawal:

An action that restricts the disposition of public lands and that holds them for specific public purposes; also, public lands that have been dedicated to public purposes. (See also Reserved lands and Revocation.)

Woodlands:

Forest lands usually supporting open-grown, widely scattered trees of marginal merchantability and generally more valuable for watershed or wildlife protection purposes than for the production of timber for commercial purposes.
